

# DAIRY & BEVERAGE FACILITY PROCESS EXPANSION **News Letter**

WE HAVE COMPLETED THE ADDITION OF TWO 15K GALLON ASEPTIC HOLDING TANKS. THIS PROJECT WAS COMPLETED IN 3 MONTHS DURING PLANT OPERATION WITHOUT ANY UNSCHEDULED DOWN TIME. AIC INSTALLED THE PROCESS TUBING, UTILITY PIPING AND PROVIDED P STEAM & STERILE AIR SYSTEMS FOR THIS PROJECT.

Chilled water piping and product lines installed on the 2 new tanks.

Culinary steam and sterile air systems were provided for this expansion.

Over 7,000 feet of pipe and tubing were installed much of which was inside existing process areas

New access platform with end of line valve clusters and steam barrier equipment.
